

Speedball

NEW ETCHING PRESSES

Speedball has partnered with Ravi Engineering to add high quality, affordable etching presses to the Speedball printmaking portfolio. Ravi Engineering has over 50 years of experience manufacturing etching presses. Ravi continuously worked with printmakers and actively incorporated their feedback into the production of their presses. These presses are designed to print etchings and drypoint plates as well as woodcuts and linocuts. They make an economic and flexible press for a school, home, or studio.

PRESS OPTIONS :

- 2 SIZES: 12x24 and 24x36 [Max print size: 12x21 | 24x30]
