DATA: 17-02-202

8. EXPOSURE CONTROLS / PERSONAL PROTECTION.

Consideration was given to consumer exposure with intended product use and under circumstances involving reasonable foreseeable misuse. Intentional product misuse was not considered within the scope of the assessment. This evaluation was conducted under assumption that potential acute exposure to product ingredients is through the dermal route and possibly the oral route through accidental ingestion. Any volatile compounds within the product were evaluated for the inhalation route of exposure. Chronic exposure is only considered to occur via the dermal route given that chronic accidental ingestion is unlikely.

Technical measures	Provide good room ventilation, which can be achieved by good local exhaust ventilation, and a good general extraction system.
Respiratory protection	If the recommended technical measures are met, any personal protective equipment is not necessary.
Eye protection	None under normal use conditions
Skin protection	None under normal use conditions

9. PHYSICAL AND CHEMICAL PROPERTIES.

Physical state	Solid	Color	Blue
-----------------------	-------	--------------	------

10. STABILITY AND REACTIVITY

Reactivity	The product presents no risk due to its reactivity.
Chemical Stability	Stable under the handling and storage recommended.
Possibility of Hazardous Reactions	The product has no possibility of hazardous reactions.
Hazardous decomposition products	In case of fire can be hazardous decomposition products such as carbon monoxide and carbon dioxide gases.

11. TOXICOLOGICAL INFORMATION

There are no available data sent from the product.

Repeated or prolonged contact with the product can cause elimination of fat from the skin, resulting in non-allergic contact dermatitis and that the product is absorbed through the skin.

Splatters in the eyes can cause irritation and reversible damage.

No information is available on the toxicity of these substances.

12. ECOLOGICAL INFORMATION

Toxicity	No information is available on the toxicity of the substances present.
Persistence and degradability	No information is available about persistence and degradability of the product.
Bioaccumulation potential	No information is available regarding the bioaccumulation of the substances present.
Mobility in soil	No information is available about the mobility in soil. Avoid contamination of soil.
Other adverse effects	There is no information about other adverse effects on the environment.

13. DISPOSAL CONSIDERATIONS

Waste and empty containers must be handled and disposed of in accordance with local / national current legislation.

14. TRANSPORT INFORMATION

It is not dangerous on shipping. In case of accident and spill the product, act in accordance with section 6.

15. REGULATORY INFORMATION

R and S phrases	R42/R43 S45
------------------------	----------------

16. OTHER INFORMATION

Meaning of the symbols of danger and R and S phrases

R42/43 - May cause sensitization by inhalation and skin contact.

S45 - In case of accident call a doctor

The safety data has been produced according with Regulation nº 1907/2006/CE

The information present on this document is based on our current knowledge and experience, describes the product and indicates the security requirements, not the properties or product specifications.

This information does not give warranty of product applicability in specific applications. It is user responsibility to create conditions for the safe use of this product as well as the use of this information.
