

# Speedball® C-Series

## Simple capitals

### Notes

C-1 size nib has been used for this example, the letter height is approximately 6 nibs. This height is optimal for beginners to practice with. For lighter weights try smaller size nibs or a higher nib width, for heavier letters try smaller nib height instead.

These capitals are the simplified version of the classic Roman capitals, made with a nib instead of a brush. These letters are the foundation of the latin alphabet and has been an endless inspiration for calligraphers and typographers alike. This version without serifs does not require nib rotations nor pressure variations, therefore easier to execute for beginners.

Treat every exemplar as a starting point for your own experiments, these are not dogmas but propositions.
