3.1 Substance

The product is a mixture and not a substance.

3.2 Mixture

Chemical Name	CAS No.	EC No.	% Concentration ^a	GHS Hazards
Titanium dioxide	13463-67-7	236-675-5	up to 41.5577%	H351: Carcinogenicity (Category 2) (inhalation)
Propylidynetrimehanol	77-99-6	201-074-9	up to 0.4156%	H361: Reproductive toxicity (Category 2); (Suspected of damaging fertility or unborn child)
Carbon black	1333-86-4	643-032-6	up to 0.1075%	H351: Carcinogenicity (Category 2) (inhalation)
Polymeric alkoxyate	Proprietary	Proprietary	up to 4.1638%	H319: Eye irritation (Category 2A)

^a Concentrations are calculated as a maximum across all products, rather than by color.

The other ingredients in the product are either considered non-hazardous or are below their respective GHS cut-off values/concentration limits in the final product and were therefore not disclosed in the SDS.

The product may contain carbon black (CAS No. 1333-86-4), titanium dioxide (CAS No. 13463-67-7), and quartz (CAS No.14808-60-7), which may be hazardous when inhaled. Given the nature and physical form of the product (*i.e.*, liquid), airborne respirable particles would not likely be released from the product and therefore the hazard is not relevant to the product.

This SDS was prepared under the assumption that several polymers contained in the final product are present as fully reacted/cured, high-molecular weight, and highly stable polymers with negligible residual monomers present (<0.1%). If this is not the case, reassessment of the product is required.

Section 4 – First Aid Measures

4.1 Description of first aid measures

Eye contact: No specific first aid measures are required. As a precaution, remove contact lenses, if worn, and immediately flush eyes with water. If eye irritation persists, contact medical advise/attention.

Skin contact: No specific first aid measures are required. If irritation occurs, wash with plenty of water and soap. Take off contaminated clothing. If skin irritation persists: Get medical advice/attention.

Inhalation: No specific first aid measures are required. Inhalation route of exposure is not anticipated with intended use. If exposed to excessive levels of material in the air, move the exposed person to fresh air. Seek medical attention if in doubt.

Ingestion: No specific first aid measures are required. Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Seek medical attention if in doubt.
