AKUA. PRINT MAKING

Formulated to dry through absorption, not evaporation, Akua Inks remove any time constraints from the creative process since the inks will only dry once printed into the fibers of the paper. Akua Inks also eliminate the need to handle toxic solvents, as they clean up easily with soap and water. These ground-breaking inks are made from the highest quality, lightfast pigments, and are complemented by seven modifiers, giving artists the utmost flexibility to experiment with the inks' viscosity and transparency.

Intaglio printing is the direct opposite of relief printing because the incised areas are what is printed rather than the raised areas. Examples of intaglio printing are etching, drypoint, engraving, photogravure, heliogravure, aquatint, and mezzotint.

A monotype is the simplest form of printmaking, requiring only pigments, a surface on which to apply them, paper and some form of press. The major difference from other printmaking processes: the artist creates exactly one print, instead of multiples (called editions).

Akua Inks have two distinct formulations available:

- AKUA INTAGLIO®**
- Professionals
 - High-Quality Pigments
 - Ideal for Intaglio/Etching, Monotype, Gel Printing and Collagraph printmaking
 - Soap and water clean-up
 - Permanent
 - Recommended for printing on paper

- AKUA LIQUID PIGMENT®**
- Beginner to Expert
 - Strong pigment but transparent
 - Ideal for monotype printing
 - Can be used to tint Akua Intaglio or other printmaking inks
 - Soap and water clean-up
 - Permanent when dry
 - Recommended for printing on paper

The Importance of Pigments: All Akua inks are named specific to the pigment utilized in their formulation to be as technically informative as possible. If a product is referred to as a single pigment (e.g., Hansa Yellow), it means that it was made with the use of just one pigment. This is crucially important for printmakers mixing colors, in that a single-pigment color will mix truer and more predictably and artists wishing to achieve the brightest, most intense results should start by mixing with single pigments.

AKUA PRINTMAKING INK

AKUA INTAGLIO INKS

Refusing to believe that the hazards, limitations and frustrations of working with traditional oil-based inks were the only possibility, professional printmaker Susan Rostow, set out to create inks that suited her creative process and needs. Akua Intaglio® Inks deliver brilliant colors, intense blacks and unmatched working properties.

Akua Intaglio Inks only dry through absorption — they will not dry on the printing plate — and clean up easily with soap and water. These inks are ideal for Intaglio/Etching, Monotype, Gel and Collagraph printmaking and can be used with Akua Liquid Pigment® and Modifiers.

MEET THE ARTIST
Susan Rostow

New York-based professional printmaker, Susan Rostow, set out to create nontoxic printmaking inks prior to the birth of her son in 1996. She created Akua Inks, which enabled her to continue making art in her home studio without the worry of toxic elements.

"I love all the Akua products equally-Mother's can't play favorites! I find the way Akua Inks stay open on my plates and dry by absorbing into the printmaking paper special. This feature makes it possible for me to achieve many ghost impressions, a necessary part of my printmaking process."

AKUA PRINTMAKING INKS

AKUA LIQUID PIGMENTS

Made with the highest quality lightfast pigments, with no chalk or suspending agents, colors are exceptionally strong, yet transparent and are ideal for multi-layer printing. The high pigment load and wide selection of colors makes it great for tinting Akua Intaglio Ink, Akua Transparent Base and other inks. Its rich working consistency is excellent for all monotype techniques. It stays wet on the plate for an extended period of time, allowing many hours to create an image. It will print well on dry or damp paper.

Available in (15) colors in 4 fl oz (118 ml) sizes. All colors clean up easily with soap and water.

AKUA PRINTMAKING INKS AKUA MODIFIERS

AKUA MAG MIX

For use with Akua Intaglio® inks to add depth and stiffen the ink.

#IIAO 8 FL OZ | 237 ML

AKUA TRANSPARENT BASE

For use with Akua Liquid Pigment® to thicken and create new Intaglio or relief colors. It can also be used with Akua Intaglio® to increase ink transparency.

#IITB 8 FL OZ | 237 ML

#IITB16 16 FL OZ | 473 ML

AKUA RELEASE AGENT

Developed for monotype ghost prints, to create high shine with metallic Akua Intaglio® Inks or when doing monotype prints with Akua Liquid Pigment®.

#IIRA 8 FL OZ | 237 ML

AKUA BLENDING MEDIUM

Developed to thin ink for brushwork, create wash effects or use as a resist for viscosity monotype.

#AK2M 4 FL OZ | 118 ML

AKUA RETARDER

Developed to slow drying rate and act as a release. A few drops of Retarder are required when printing on dry paper. Ideal for dry climates.

#AK1M 4 FL OZ | 118 ML

AKUA EXTENDER

For use with Akua Liquid Pigment® as a thinning agent, if ink becomes too thick.

#AK3M 4 FL OZ | 118 ML

AKUA TACK THICKENER

For use with Akua Liquid Pigment® to thicken and for heavier roll-up applications for monotype or block printing.

#AK4M 4 FL OZ | 118 ML

CARBORUNDUM GEL

Head to the Akua Printshop YouTube channel to learn more about how to quickly and easily create collagraph printmaking plates through additive and reductive processes.

See what its about!

AKUA CARBORUNDUM PLATEMAKING GEL

Developed to create collagraph printmaking plates. This ready-to-use platemaking gel offers a reliable medium that delivers fine, sharp detail and a uniquely textured surface that yields rich, velvety areas of color. Great for use with Akua Intaglio® Inks, Akua Printmaking Plates and Akua Wiping Fabric.

#IICG 8 FL OZ | 237 ML

AKUA PRINTMAKING TOOLS

PRINTMAKING PLATES

Made from crystal clear, 100% PETG plastic, Akua Printmaking Plates are thin and flexible, making them easier to work with than traditional plexi. With a non-porous, soft and malleable surface, lines can be easily incised for drypoint, and is also ideal for monotype or collagraph printing with or without a printing press. Use with any water- or oil-based printmaking inks. For maximum working time and best results, print with Akua Intaglio or Liquid Pigment. May be used for printing on traditional press, with the Akua Pin Press or a baren.

Akua Printmaking Plates come in (5) sizes. Clean up easily with soap and water.

AKUA PRINTMAKING TOOLS

TOOLS + RESOURCES

AKUA WIPING FABRIC
Ideal for wiping excess ink from the surface of all types of Intaglio/Etching, Drypoint, Collagraph and Photopolymer plates. It is made from polyester, making it sturdy and long-lasting. Softer than Tarlatan.

#WIPE10 10 YDS x 19IN | 9.1 M x 48.2 CM

#WIPR100 100 YDS x 19IN | 91.4 M x 48.2 CM

AKUA® PIN PRESS
A portable press designed for light pressure printing processes such as Monotype, Drypoint and Collagraph. It offers an economical alternative to standard printmaking presses. The Pin Press is 20in (50.8cm) long, which allows for printing from plates 19.75in (50.1cm) or smaller, and is precisely machined to provide uniform contact between roller, plate and paper. Its all metal construction ensures long-lasting durability, and its crescent-shaped handles allow for ergonomic printing while also acting as the press' stand when not in use.
