Water-Soluble Ink

Speedball® BLOCK PRINTING

Speedball's heritage in printmaking began over 75 years ago by pioneering the manufacturing of water-based inks. Since that time, Speedball has become a true one-stop-shop for all things lino printing, offering the broadest range of inks, surfaces, tools & accessories and block printing kits available on the market today.

Block, or relief, printing includes linocuts, lino prints, woodblock prints, rubber stamping - any method where you carve into a material (a block, plate, etc.) and print an impression of the carved surface with ink.

Speedball makes (4) different types of Block Printing Ink:

- WATER-SOLUBLE**
- Beginner to Expert
 - Water-Soluble
 - Soap and water clean-up
 - Non-permanent
 - Recommended for printing on paper

- FABRIC**
- Beginner to Expert
 - Water-Miscible/Washable Oil-Based
 - Soap and water clean-up
 - Permanent after one week (no heat set required)
 - Recommended for printing on fabric

- PROFESSIONAL RELIEF**
- Professionals
 - Water-Miscible/Washable Oil-Based
 - Single pigment formulation
 - Soap and water clean-up
 - Permanent + Archival
 - Recommended for printing on paper

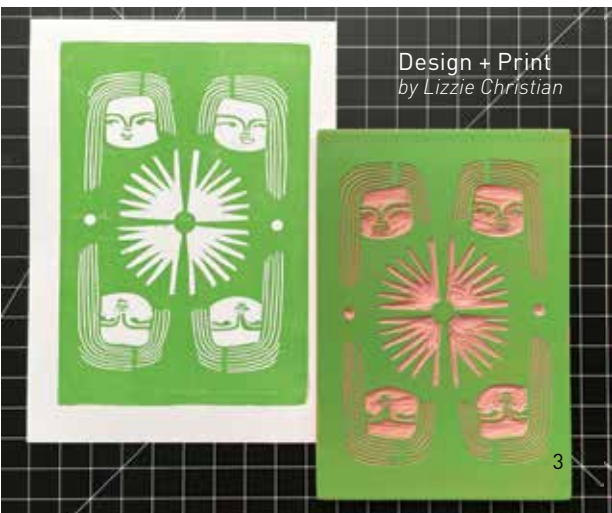

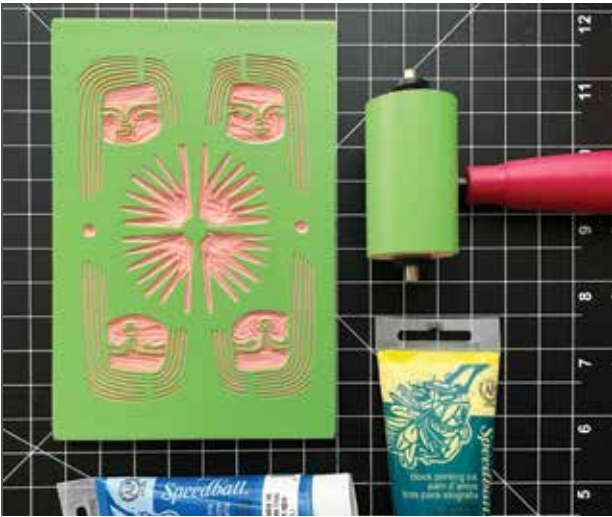

- OIL-BASED INK**
- Professionals
 - Traditional oil-based formulation
 - High-Quality Pigments
 - Solvent or vegetable oil clean-up
 - Permanent + Archival
 - Recommended for printing on paper

Water-Soluble Inks are formulated to be dissolvable by water. This means that the inks will move, bleed or rinse off when encountering water after printing. Great for students and beginners.

Water-Miscible Oil-Based Inks are formulated to have working properties and print results similar to traditional oil-based inks, and allow for easy clean-up that requires no solvents. These inks are not dissolvable by water after drying.

Traditional Oil-Based Ink are formulated to have rich color and a long open-time, used by masters through the ages. Solvent or vegetable oil clean-up needed. These inks are not dissolvable by water after drying.

BLOCK PRINTING INK WATER-SOLUBLE INKS

The unquestionable industry-leader! Created from pigments ground and milled to the perfect consistency for block/relief printing, Speedball® Water-Soluble Block Printing Inks print in bold color and dry to a rich, satiny finish. They possess excellent tack ensuring even coverage and consistently spectacular results. Great for printing with linoleum, wood or soft block surfaces.,

Available in (19) brilliant colors, (5) metallics and (6) fluorescents in 5 different sizes. All colors clean up easily with soap and water.

MEET THE ARTIST
Sarah Reed-McNamara

"I use the Fabric Block Printing Ink every week to create colorful and rich textile goods. The inks serve my studio set up quite well, as they only need to air dry for 24-48 hours and no heat set it is required. Besides the ideal drying time, the Fabric Block Printing Inks have rich colors and mix very well together. They print incredibly well on a variety of textiles and are wash safe."

BLOCK PRINTING TOOLS

SPINBACK™ ROTATING BENCH HOOK

Invented by acclaimed printmaker Alex Carmona, the Speedball® Spinback™ is a truly innovative solution and an absolute must-have for any relief printer's studio. Masterfully designed, this one-of-a-kind tool allows printmakers to carve without the risk of accidental slips and alleviates the pain and pressure often experienced in relief printers' hands, elbows and wrists.

With a seamless 360 degree rotation, Spinback allows you to quickly and easily rotate your block to carve in any direction whether using wood or linoleum blocks. Its robust design (22 x 22 x 2.6in | 55.8 x 55.8 x 6.6cm), non-slip backing and integrated clamping system guarantee your block won't accidentally shift during carving. This extra stability lets both hands become a part of the carving process, allowing you to dial up the detail and intricacy of your prints, no matter your experience level.

MEET THE ARTIST

Alex Carmona

"I designed this initially not as a product, but as a solution to eliminate all of the pain and issues I was having with my left arm, wrist and shoulder due to the constant pressure I was needing to put on it during carving. I got a hold of my friends over at Speedball because I have a great relationship with them and I love them as a company, and they figured out a way to manufacture it."

BLOCK PRINTING TOOLS

RUBBER BRAYERS

Brayers, or rollers, are an integral part of any printmaker's studio. Our iconic, red-handled brayers are among the most popular of our block printing supplies, a portfolio that dates back all the way to the 1930's.

Soft Rubber brayers are great for applying ink to uneven surfaces, while Hard Rubber brayer is ideal for use with water-washable, oil-based inks like Speedball Fabric Block Printing Ink. Also available in a craft version perfect for use with any gluing application or paper-crafting project.

BLOCK PRINTING TOOLS

SOFT RUBBER BRAYERS

Made from soft, natural latex gum rubber with a precision-ground finish, Speedball Soft Rubber Brayers are ideal for use with linoleum, soft block, or woodcut. The heavy-duty steel frame provides enhanced durability, and the flexibility of the 40/42 durometer ensures for even ink distribution. Available in (7) sizes, ranging from 1.5in (3.8cm) to 6in (15.2cm), these brayers work best with water-soluble or oil-based printing inks.

Block Printing Fabric Inks

BLOCK PRINTING TOOLS

HARD RUBBER BRAYERS

Speedball's® Deluxe Hard Rubber Brayer features a synthetic rubber (72 durometer) that is ideal for use with water-washable, oil-based inks like Speedball Fabric Block Printing Ink.

The Craft Brayer is great for light carving, gluing applications or for rolling down prints and other graphic projects. Durable plastic handles make for a comfortable grip.

BLOCK PRINTING TOOLS

POP-IN™ BRAYERS

Providing the utmost flexibility, rollers can be changed quickly and easily in order to suit your project's needs. Use Speedball's Foam Roller for adding suede, stippled, or splattered texture effects to a design. Creating a block print? Then grab our Speedball Hard Rubber Roller for light carving applications or our Soft Rubber Roller for any linoleum, soft block or woodcut project. In a sticky situation (with glue, that is)? Our Acrylic Brayers are the perfect tool for working with a broad range of adhesives.

All rollers available in 4in (10.2cm) size. Also available in the Speedball Pop-In Brayer Kit that features the complete line of interchangeable rollers along with the 4in (10.2cm) Brayer.

BLOCK PRINTING SURFACES
SPEEDY-CARVE™ BLOCKS

Created from a revolutionary material, Speedy-Carve™ Blocks provide you with a nearly effortless carving experience without having to sacrifice the fine detail usually associated with traditional linoleum block designs. Available in (5) sizes and great for use with either water-soluble or oil-based block printing inks, these blocks are the perfect fit for novice and expert relief printers alike!

Table with 2 columns: Product Number and Dimensions. Rows include #004107, #004108, #004118, #004196, and #004197.

SPEEDY-CUT EASY™ BLOCKS

Manufactured from a blue, eraser-like material, Speedy-Cut Easy™ Blocks make for easier carving than traditional linoleum blocks, and are highly durable, resisting flaking, cracking and crumbling. Available in (4) sizes, these are suitable for use with water-soluble block printing inks only.

Table with 2 columns: Product Number and Dimensions. Rows include #004200, #004201, #004202, and #004203.

SPEEDY-CUT™ BLOCKS

Ideal for any setting where young students are learning the art of block printing, Speedball's® Speedy-Cut™ Blocks are made from a soft rubber that is easy to carve. Available in (3) sizes, this economical alternative to traditional linoleum blocks is suitable for use with water-soluble block printing inks only.

Table with 2 columns: Product Number and Dimensions. Rows include #004345, #004346, and #004347.
