

Calligraphy + Illustration *Speedball®*

Speedball®

Calligraphy + Illustration

Speedball's proud heritage for pen-making began in 1899, when the C. Howard Hunt Pen Company began manufacturing and distributing steel pens. Nearly two decades later, in 1913, Hunt sought to improve upon the functionality of the lettering tools of the day and joined forces with master letterers Ross F. George and William H. Gordon in 1913 to contrive and perfect a nib with a reservoir. It was nicknamed "Speedball" because of the efficiency of the pen, which cut working time in half. Today, each and every Speedball nib, ink and kit is made in Statesville, NC.

The Speedball name has become synonymous with high-quality pen nibs. There are two different kinds of nibs: broad-edge and pointed, both can be inserted into Speedball pen holders. In addition, Speedball now proudly manufactures a suite of complementary products. From pen holders to dip inks & cleaners to calligraphy markers and fountain pens, Speedball offers the broadest range of supplies designed specifically for drawing & lettering work.

BROAD EDGE NIBS

Made to have a rigid, flat edge that produces thick and thin, ribbon-like strokes, Speedball offers a range of broad edge nibs (see page 74)

POINTED PEN NIBS

Made to vary in levels of flexibility, pointed pen nibs are designed to flex and spring depending on the amount of pressure applied. Utilized for large flourishes or illustrations that have a high levels of detail. Speedball offers a range of pointed pen nibs (see page 78)

CALLIGRAPHY FOUNTAIN PENS

- 1mm, 1.5mm and 1.9mm Nib Widths
- Convenient with Refillable Cartridges
- Acid-Free

ELEGANT WRITER® MARKERS

CALLIGRAPHY + ILLUSTRATION

BROAD-EDGE + POINTED PEN NIBS

Whether you prefer a broad edge nib or are a pointed pen enthusiast, Speedball manufactures a nib that is precisely-crafted to suit your needs. Utilizing the same historically proven processes specifically catered to each individual nib's design, Speedball takes painstaking measures to ensure that each of our nibs meets even the most discerning standards. We have a dedicated member of our Speedball family that hand-inspects all nibs, one by one, that passes through production, ensuring each nib is the quality our artists have come to expect.

NIBS

BROAD-EDGE NIBS

Manufactured to have a rigid, flat edge that produces thick and thin, ribbon-like strokes, broad edge nibs are most commonly associated with Italic, Monoline or Gothic alphabets. The triple-reservoir design of these pen nibs allow for increased ink capacity and extended, smooth, uninterrupted ink flow. Available in a range of sizes across three styles, A, B, and C. *C Style Pen Nibs are also available in Left-Handed versions.*

EXEMPLAR BY: FILIP CIŚLAK
created with A-0 Nib

A-SERIES PEN NIBS

Patented in 1913 and introduced two years later, the A-Series nib is where it all started for Speedball. Featuring a nib that possesses a square tip, bent to form a "shoe," A-Series nibs allow artists to create a uniform line with a single stroke. Most commonly used for Gothic, Monoline and Block Sans Serif.

The A-Series is available in (6) nib widths:

- #003000 A0 SQUARE BOXED
- #0030010 A1 SQUARE BOXED
- #0030020 A2 SQUARE BOXED
- #0030030 A3 SQUARE BOXED
- #003004 A4 SQUARE BOXED
- #0030050 A5 SQUARE BOXED

WAYS TO USE:

- Perpendicular to base line: Keeping shoe flat on surface; produces uniform stroke in any direction with squared beginnings/endings
- Held at angle: Achieves either diamond-shaped beginning/ending or a squared finished on a diagonal stroke
- Turned on back: Using broad, flat end; produces either letterforms with thicks and thins or serifs of uniform width

WHAT DO THE NUMBERS MEAN?

The smaller the number, the larger the nib width

BROAD-EDGE NIBS

B-SERIES PEN NIBS

The B-Series was developed shortly after the A-Series and launched in the 2nd Edition of The Speedball Textbook in 1916. Like the A-Series, the B-Series has a bent end to form a "shoe" to produce a uniform width line. Unlike its counterpart, the B-Series has a rounded finish, ideal for creating sans serif letters without thick and thin lines.

The B-Series is available in (9) nib widths:

#003010	B0 ROUND	BOXED
#003011	B1 ROUND	BOXED
#0030120	B2 ROUND	BOXED
#003013	B3 ROUND	BOXED
#003014	B4 ROUND	BOXED
#003015	B5 ROUND	BOXED
#003016	B6 ROUND	BOXED
#003017	B1/2 ROUND	BOXED
#003018	B5-1/2 ROUND	BOXED

WAYS TO USE:

- The B-Series can be used for an array of monoline projects. Most commonly used to create the following:
- Monoline
- Versals
- "Built Up" letters
- Cartoons, uniform line drawings, borders

MEET THE ARTIST

Tolga Girgin

Renowned calligrapher, Tolga Girgin, first made a splash in the calligraphic community with his three-dimensional anamorphic lettering works. Within the past decade, Tolga has developed a mastery of more classical calligraphy scripts and trusts the A-, B- and C-Series nibs to play a role in executing his exceptional broad edge techniques.

ARTWORK BY: TOLGA GIRGIN
created with Speedball B-3 Series nib

NIBS

BROAD-EDGE NIBS

 *Alphabet*

C-SERIES PEN NIBS

The C- marked the third addition of Speedball series of nibs, with the line now representing the most popular of broad-edge offerings. This C-Series is a traditional broad-edge nib with great deal of flexibility. This flexibility was intended to have the same characteristics of ancient scribes' reed pens, while offering a calligrapher a "close imitation of the finest small brush work." The C-Series was developed to be held at a consistent pen angle that varies dependent upon alphabet.

The C-Series is available in (7) nib widths and is also available in left-handed construction:

#003020	C0 FLAT	BOXED
#0030210	C1 FLAT	BOXED
#0030220	C2 FLAT	BOXED
#0030230	C3 FLAT	BOXED
#003024	C4/C5 FLAT	BOXED
#003025	C5 FLAT	BOXED
#003026	C6 FLAT	BOXED

LEFT-HANDED

#003050	LC0 FLAT	BOXED
#0030510	LC1 FLAT	BOXED
#003052	LC2 FLAT	BOXED
#003053	LC3 FLAT	BOXED
#003054	LC4 FLAT	BOXED

WAYS TO USE:

The C-Series can be used for most traditional calligraphic alphabets including:

- Roman
- Carolingian
- Italic
- Blackletter (Gothic, Old English)
- Uncial / Half Uncial
- Foundational

ROMAN CAPITALS with STYLE "C" SPEEDBALL PENS

NIBS

POINTED PEN NIBS

Manufactured to vary in levels of flexibility, pointed pen nibs are designed with a small slit between two tines that spread, flex and snap to a greater or lesser degree, depending on the nib's construction and the amount of pressure applied by the artist. Often utilized for scripts possessing large flourishing or illustrations that require intense levels of detail, Pointed Pens can be classified into three distinct segments, "Pointed," "Crow Quill" and "Bowl-Pointed."

#22-B EXTRA FINE
Medium stiff, bronze finish, for ornamental work and ruling.

#56 STANDARD SCHOOL
Stiff action, fine drawing pen for student use, bronze finish.

#99 DRAWING
Extremely flexible nib with extra fine point.

#100 ARTIST
Small, flexible, and delicate. Suitable for writing at x-heights of 1/8in (3.75mm) or less.

#101 IMPERIAL ARTIST
Flexible tip for pressurized lettering styles Copperplate and Spencerian.

#102 CROW QUILL
America's most popular art pen. Superfine and flexible.

#103 MAPPING ROUND POINTED
Specialized for delicate work and details, lines and lettering. More flexible and less fragile than the #100.

#104 FINEST DRAWING
Superfine art pen for fine hairlines and small detail.

#107 HAWK QUILL
Superfine point, stiffer than #102, very durable. For long, even lines and cross-hatching details.

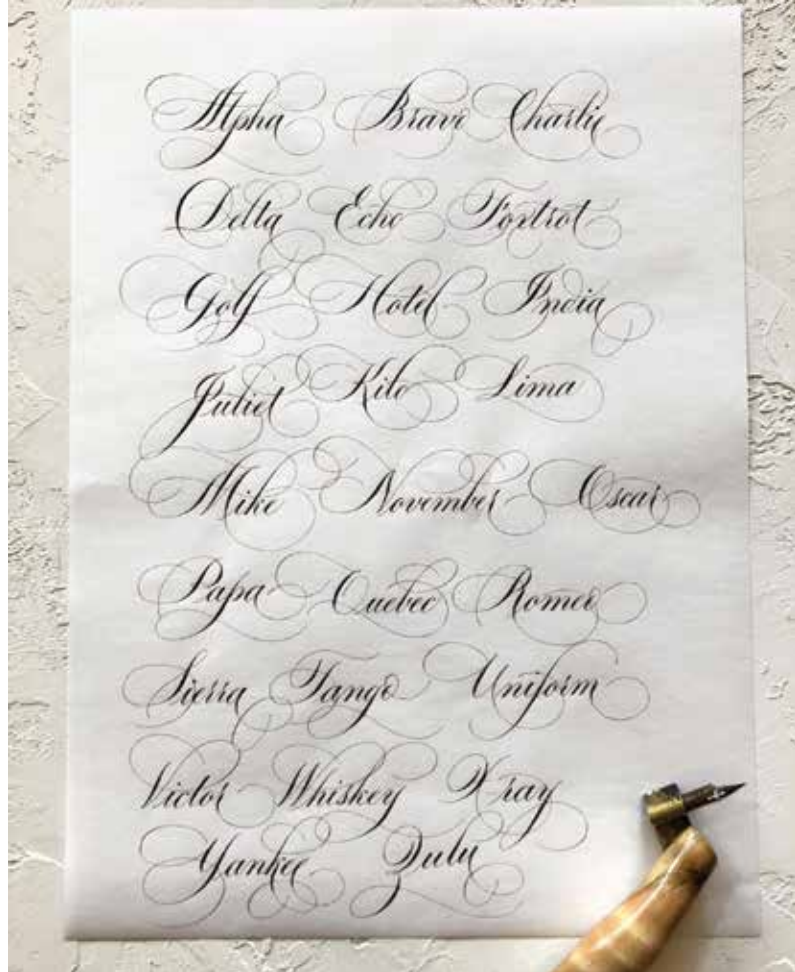

#108 LITHO HAWK QUILL
Superfine point for superfine lines and shades with slight pressure and cross-hatching and flourishing details.

#512 BOWL POINTED
Fine pen for ruling and lettering.

#513 EF-GLOBE
Extra fine bowl pointed for industrial arts.

COPPERPLATE SAMPLE BY SUZANNE CUNNINGHAM created with #101 Nib

POINTED PEN NIBS

Sturdy and durable, these nibs are suitable for use on a broad range of papers and projects sizes/scales. Similar in design, each of the nibs within this grouping vary in flexibility and spring, allowing for different writing experiences and results, providing artists with the maximum amount of control.

The Pointed Pen Nibs are available in (7) nib styles and can be used with either the Standard or Oblique holder designs.

#009405	#22B	BOXED
#009406	#56	BOXED
#009409	#99	BOXED
#009400	#100	BOXED
#009401	#101	BOXED
#009403	#103	BOXED
#009404	#104	BOXED

WAYS TO USE:

This group of nibs is ideally-suited for use with ornamental or decorative projects and calligraphy. The most commonly associated alphabets are Copperplate and Spencerian scripts.

ART BY JEREMY BASTIAN
created with #102 Nib

NIBS

POINTED PEN NIBS

CROW QUILL PEN NIBS

Hunt Crow Quill nibs all possess a tubular design and offer different levels of flexibility and fineness of point. While most often used as drawing tools, these nibs can be used for calligraphy, especially the #108 for alphabets featuring bold flourishes.

The Crow Quill Pen Nibs are available in (3) nib styles and can be used with the #102 holder.

#009402 #102 CROW QUILL BOXED

#009407 #107 HAWK QUILL BOXED

#009408 #108 BOXED

WAYS TO USE:

Noted for their superior ability to hold larger amounts of ink and minimize the need for reloading, this group of nibs is most commonly associated with drawing details like cross-hatching.

MEET THE ARTIST Tony DiTerlizzi

"I like the versatility of the [#]102 nib... It's a plucky nib [that] creates very fine, succinct strokes."

BOWL-POINTED PEN NIBS

Hunt Bowl-Pointed nibs possess less flexibility than the standard pointed grouping and offer a high potential for detail. The #512 nib features a fine point, while the #513EF boasts an extra fine pen point.

The Bowl-Pointed Pen Nibs are available in (2) nib styles and can be used with the Standard holder.

#009412 #512 BOXED

#009413 #513EF BOXED

See it in action!

#101 + #22B NIBS ARE THE TOP FAVORITES!

Acclaimed calligraphers around the world agree, these nibs are perfect for Copperplate, Spencerian and Engrosser's Script.

WAYS TO USE:

This group of nibs is ideally-suited for use on project requiring high levels of detail. These nibs are most commonly associated with drawing/cross-hatching, but can be used for calligraphy, especially for artists who claim they are "heavy-handed."
